Workplace Politics, Bias, and Other Risk
Management "Best Practices"

In this informative presentation, Brian Carnie, Michael Lowe, and Ann Rene Hankins will cover recent legal developments that affect employers of all sizes. The program will offer information on recent employment cases and new laws and EEOC developments, as well as the specific state law prohibitions as they relate to political activities and views as we approach the mid-term elections. They will also provide practical guidance for decision-makers on how to avoid being a #YouToo in the #MeToo era and strategies regarding EPLI (Employer Practices Liability Insurance).
